WHAT'S NEW FOR 2018

- As a first step in a project to simplify the Big Game Regulations, this booklet has been reorganized and reformatted; examples are the new Youth section on pages 20 and 21 and **highlighting new information and changes in yellow.**
- Beginning January 1, 2018, the eligible age for the Mentored Youth Program is extended two years to include youth 14 and 15 years of age.
- The 3% limitation on nonresident bear tags has been removed for the General Fall Bear Season. The 3% nonresident limitation will continue to be in effect for all spring bear hunts.
- The Department is sponsoring a new “Take a Friend Hunting” Contest (Contest) to encourage mentoring among adult hunters. Mentors and mentees must be at least 18 years of age or older. To be eligible, mentees must have 1) not had a hunting license prior 2017 or only had a hunting license in 2016; or 2) not had a hunting license in the past five consecutive years (i.e., since 2012). To see the full eligibility and contest rules, and for information on prizes, visit the Contest page at <http://www.oregonhunter.info/take-a-friend/>.

LICENSE REQUIREMENTS

License Requirements

All Hunters

- Must have a valid hunting license.
- Hunting licenses are valid through December 31 of each year.
- No one may possess more than one valid annual hunting license.
- Any hunter with a valid Oregon or Idaho hunting license may hunt in the waters or on the islands of the Snake Rvr, where the river forms the boundary between the two states. All laws and rules of the respective states apply.
- To hunt big game you must have in possession a big game tag valid for the dates, area, and species being hunted.
- Certain licensing exceptions apply to youth, active duty military, veterans, and land owners. See pages 20-24.

Oregon Residency Requirements

- To qualify as an Oregon resident, you must reside in Oregon for at least six consecutive months (excluding temporary absence) immediately prior to applying for a license, tag, or permit. See page 90 for complete definition.
- Submitting a false application is a crime.

CONTROLLED HUNT APPLICATIONS AND TAGS

What is a Controlled Hunt?

Unlike general season hunts where anyone can buy a tag over-the-counter, controlled hunts are limited entry hunts that require you to apply in advance for the opportunity to draw a tag in ODFW's controlled hunts drawing. Much of Oregon's deer and elk hunting is limited entry - along with all pronghorn antelope, bighorn sheep and Rocky Mt goat hunting.

How Does the Controlled Hunt Draw Work?

For deer, elk, pronghorn and spring bear hunts (Premium Hunts excluded), most tags (75%) are awarded to those first choice applicants with the most preference points. The remaining 25% are awarded randomly amongst all first choice applicants, so everyone that applies always has a chance to draw their first choice hunt. If tags remain

after all first choice applicants have been successful, then remaining tags are distributed randomly amongst all second choice applicants, and so on through fifth choice applicants if tags remain. Preference points are not considered in selection of application choices two through five.

For bighorn sheep, Rocky Mt goat, and premium hunts, there are no preference points, all tags are awarded based on a random draw.

Controlled hunts are divided into hunt series based on species, and then further divided into hunt numbers based on location. Hunters can apply for one hunt number in each hunt series each year as their first choice.

Hunt Series:

- 100 – Buck Deer
- 200 – Elk
- 400 – Pronghorn Antelope
- 500 – Bighorn Sheep
- 600 – Antlerless Deer
- 700 – Spring Black Bear
- 900 – Rocky Mountain Goat
- L – Premium Deer
- M – Premium Elk
- N – Premium Pronghorn Antelope

Preference Points Explained

Every year you do not draw your first choice hunt you get a preference point, which increases your odds in future years. If you draw your first choice hunt, your preference points are reset to zero whether or not you actually purchase the tag. One exception to this is for Pioneer License holders, who have their points reset to one rather than zero when they are successful in drawing their first choice hunt. Preference points are tracked by your Hunter/Angler ID# and are maintained until you are successful in drawing your first choice hunt for a series.

If you cannot hunt this year, or choose to hunt in a general season, apply for a point saver to gain a preference point and increase your odds in future years. You must have a hunting license. If you do not go through the draw, you can also apply for a point saver for each hunt series July 1 through November 30 (except spring bear). Point saver hunt numbers always end in 99 (i.e. use hunt number 199 when applying for a buck deer point saver, 299 when applying for an elk point saver, etc.). You cannot apply for other hunt choices within the

same series if you apply for a Point Saver (i.e. no second choice hunt selections are permitted).

Youth nine years of age or older can apply for Point Savers provided they have a social security number and a valid Youth License. Youth applying for Point Savers cannot apply for a First Time Youth tag in the same series in the same year.

How Do I Apply for a Controlled Hunt?

Step 1: Choose a hunt.

Controlled hunts are broken down by species and location. All hunts are listed by hunt series in the hunt tables, and each hunt has a unique hunt number. You may select up to five hunt choices per series (1st choice, 2nd choice, 3rd choice, etc.). Most tags run out after the 1st choice drawing. Keep in mind that your first choice hunt is the most critical because preference points and the 25% pool only apply to first choice hunts.

You can get an idea of your odds of drawing a hunt by looking at the Big Game Regulations, where you will see the number of tags and

number of 1st choice applicants from the previous year. Tag numbers and applicants can change from year to year, but usually not by huge amounts.

Step 2: Decide if applying as an individual or in a party.

Many hunters choose to join together with family and friends and apply for a hunt as a party. This means that either everyone in the party will draw a tag, or no one will. Parties will not be split if the nonresident maximum is reached for any hunt. Parties composed solely or partially of nonresidents will not be eligible to receive tags in a hunt after the nonresident maximum is reached. When applying as a party, all applicants must purchase separate applications and individual preference points are combined and then averaged for the group (averages of .51 and above will be rounded up, and averages of .50 and below will be rounded down). You must indicate whether you are applying as a party member or party leader. Party members must include the party leader's Hunter/Angler ID# on their applications, and the party leader's choices will apply to the entire group. Hunts also have party size limits: 18 for deer and elk, 6 for black bear, 2 for pronghorn antelope,

individual only for Rocky Mt goat, bighorn sheep, and premium hunts.

Step 3: Get a hunting license.

To apply, you must first purchase an annual hunting license. You can purchase the hunting license at the same time you apply for a controlled hunt. You can buy a license and apply online, at a license sales agent, at ODFW offices that sell licenses, or by mail or fax order using the application available online at: http://www.dfw.state.or.us/resources/hunting/big_game/regulations/docs/2017_Mail_Order_Application.pdf

Step 4: Complete your application and apply by February 10th for spring bear, and May 15 for all other big game species.

Once you have completed steps 1-3 above, you are ready to apply for your tag! Get your application right — simple mistakes can derail your chances of drawing a tag. Triple-check your hunt number (and party leader's number if applying with others) to make sure they are correct. If applying at a license sales agent, check your application before you leave the store and get a receipt showing your hunt choices. Keep your receipt for proof of application.

CONTROLLED HUNT APPLICATIONS AND TAGS

An error can be corrected if done by June 1. For applications completed at a license sales agent, errors discovered the same day as the purchase can be canceled by the agent and a new, corrected application can be issued. For errors caught after the day of application or errors to online or mail order applications, a completed application change request form must be received at ODFW headquarters by June 1 to have the application changed. Contact the Controlled Hunt staff at ODFW headquarters if you have questions. Application change request forms can be obtained from ODFW offices that sell licenses or at: http://www.dfw.state.or.us/resources/hunting/big_game/controlled_hunts/docs/2018_ch_app_change_request.pdf

There is no charge for the first change to a controlled hunt application, but \$25 will be charged for each subsequent application change to the same hunt series.

Step 5: Wait for draw results.

Results (successful or unsuccessful) will be made available by February 20 (spring black bear) and June 20 (big game). Check draw results by visiting the My Hunter Information page at or.outdoorcentral.us/or/hunterreport or call Controlled Hunts 503-947-6102 or 1-800-708-1782 (In Oregon only).

Step 6: After the draw.

If you drew the tag, congratulations! But don't forget to pick up your tag before the first hunt period begins. If you purchased a Sports Pac, you still need to pick up the tag for your particular hunt.

If you didn't get your first choice hunt, you now have a preference point for that hunt series for next year's draw. Points are affiliated with a hunt series, not a particular hunt number, so even if you change your mind and choose a different hunt next year, the point goes with you.

Hunters have the option of deciding whether or not they want to purchase the tag for the hunt choice drawn, but if their first choice hunt is drawn they will lose their preference points.

If you did not draw a tag check out general season opportunities.

Step 7: Report your results.

Don't forget to report the results of your hunt! See page 8 for details.

Leftover Controlled Tags

There are very few leftover tags and they typically sell out within a few minutes. Leftover spring bear tags go on sale Mar. 15 at 10:00 am (PST), leftover tags for all other big game species go on sale July 1st at 10:00 am. For more information please go to: <http://www.dfw.state.or.us/resources/hunting/index.asp>

Cancelled Hunts

It is rare but occasionally hunts are canceled in response to an unexpected event such as winter kill or disease outbreak. Information about any cancelled hunts will be made available by Apr. 15. A postcard will be sent to all applicants who apply for a hunt that is cancelled by Apr. 15, stating the hunt applied for has been cancelled and detailing their options. If ODFW does not receive a response from the applicant, their second hunt choice will become their first choice. If that hunter is successful in the draw, no preference points are awarded and existing preference points will return to zero. If unsuccessful, applicants will receive a preference point.

Nonresident Applicants

A maximum of 3% of tags for pronghorn antelope and controlled black bear hunts, and a maximum 5% of tags for controlled deer and controlled elk hunts can be issued to nonresidents. No less than 5% and no more than 10% of all bighorn sheep and Rocky Mt goat tags will be issued to nonresidents. Less than the maximum percentage may be issued, as nonresident applications receive no preference other than existing preference points in the drawings. The Guides and Outfitters Program impacts the number of nonresident tags available in the drawing.

Guides and Outfitters

As enacted by the 1997 Oregon State Legislature, the Guides and Outfitters Program provides guides and outfitters with the opportunity to market nonresident tags. A number of tags equal to one-half the nonresident tags drawn in the previous year are available through this program. Guides certified by the Oregon State Marine Board submitted applications and competed for the right to market these tags. Tags not sold to guides by Apr. 15 are available in that year's big game drawing. Information on Guides and Outfitters can be obtained from Oregon State Marine Board in Salem, 503-378-2633.

Additional Controlled Hunt Information

For more detailed information on how the drawing works, or to check your preference points or success in the draw, visit or.outdoorcentral.us/or/hunterreport. The computer-assisted telephone line allows hunters to access preference point information or to check the status of their applications, by entering their Hunter ID number and selecting the type of information desired. Controlled Hunt staff will also be available during regular business hours by calling 503-947-6102 or 1-800-708-1782 (in Oregon only).

GENERAL HUNTING REGULATIONS

General Hunting Regulations

Shooting Hours

Game mammals may only be hunted from 1/2 hour before sunrise to 1/2 hour after sunset.

Decoys

The use of decoys with moving parts is prohibited for big game species. This prohibition includes, but is not limited to, decoys with parts that are powered by a motor, battery, human action (for example, cable or pull-string), or the wind. Flexible or adjustable parts that permit placement or adjustment of a decoy but do not otherwise move do not constitute "moving parts".

Aircraft, ATVs, Boats, Drones, Vehicles

It is unlawful to:

- Hunt or harass any wildlife from a motor-propelled vehicle.
- Hunt within eight hours of communicating with or receiving information on the location of game mammals from a manned aircraft.
- Use drones for the following purposes:
 - » Hunting, trapping, or angling.

- » Aiding hunting, trapping, or angling through the use of drones to harass, track, locate or scout wildlife.
 - » Interfering in the acts of a person who is lawfully hunting, trapping or angling.
 - Hunt within 8 hours after having been transported by helicopter or fixed-wing aircraft to any point other than an established airport adequate for fixed-wing aircraft.
 - Operate or be transported in a motor-propelled vehicle in violation of a Cooperative Travel Management Area restriction. This includes aircraft, except for those landing on a designated air strip.
 - Operate a snowmobile or ATV while carrying a firearm or bow. Firearms and bows must be unloaded except for the following circumstances:
 - » A person who is licensed to carry a concealed handgun in Oregon
 - » A current or honorably retired law enforcement officer
- For this regulation "unloaded" means:
- » Revolver – no live cartridge in the chamber that is aligned with the hammer
 - » Muzzleloader – not capped or primed
 - » Bow – all arrows in the quiver
 - » All Other Firearms – no live cartridge in the chamber
- See ORS 821.240 for complete statute language.

- Cast an artificial light from a motor vehicle while in possession of a weapon; or cast an artificial light upon a game mammal, predatory animal, or livestock from within 500 feet of a motor vehicle while in possession of a weapon.

Prohibited Methods

It is unlawful to:

- Hunt or shoot from or across a public Rd, Rd right-of-way or railroad right-of-way, except persons legally hunting on Rds closed to use of motor vehicles by the public.
- Hunt for or kill any wildlife for another person.
- Hunt any game mammal with dogs, except western gray squirrel.
- Hunt any wildlife with infrared or any other night vision sights.
- Use an artificial light for hunting any wildlife, except raccoon, bobcat and opossum provided the light is not cast from or attached to a motor vehicle. This includes laser sights or any other sights which project a beam to the target. This does not include battery operated sights which only light the reticle.
- Take game mammals with trap or snare.
- Use any poisoning, immobilizing, or tranquilizing drug or chemical to hunt or kill any game mammal.

- Rugged
- STEEL Frame Construction
- Wood Burning Stove
- High Ground Clearance
- Built to Last

GENERAL HUNTING REGULATIONS

Trespass

It is unlawful to hunt on private property without permission from the landowner. See ORS 105.700 and 498.120.

The duty to retrieve and to not waste does not justify otherwise criminal conduct including but not limited to trespass.

Hunting Prohibited

It is unlawful to:

- Hunt with a centerfire or muzzleloading rifle without a valid used or unused deer or elk tag for that time period and area on your person (see exceptions) during: standard Eastern Oregon controlled buck deer centerfire firearm season (Sept. 29 – Oct. 10), Cascade bull elk centerfire firearm season (Oct. 13 – Oct. 19), Coast bull elk 1st and 2nd centerfire firearm seasons, Rocky Mt bull elk or either sex centerfire firearm seasons, or the standard Rocky Mt antlerless elk centerfire firearm seasons (Nov. 17 – Nov. 25). This does not include the controlled W High Cascade (119A) or Hood White Rvr (141A) buck hunts. **Exceptions:** (1) Hunters who have a tag for one of the hunts listed above, or a valid tag for another game mammal controlled hunt that includes all or a portion of the time period and area of the above hunts, may hunt as authorized by that tag and may continue to hunt bear and/or cougar within the time period and area for which their tag is valid (used or unused) provided they have a valid, unused bear and/or cougar tag; used tags must be on the tagged animal and not on the hunters person. (2) Hunters are not required to have an elk tag to hunt bear or cougar in the Applegate WMU during elk seasons. (3) Landowners, or their agent, hunting predatory animals on lands they own or lease may use centerfire or muzzleloading firearms to hunt on such lands; (4) Hunters may use .22 caliber or smaller centerfire firearms for hunting coyotes in Juniper, Beatys Butte, Whitehorse and Owyhee Units, in Wagontire Unit south of Lk Co Rd 5-14 and those portions of the Beulah Unit in Malheur and Baker Cos. during Rocky Mt bull or either-sex elk centerfire firearm seasons. Legal .22 caliber centerfire firearms include common cartridges such as .222, .223, .22-250, .220 Swift and others less than .23 caliber.
- Hunt on any refuge closed by state or federal government.
- Hunt within corporate limits of any city or town; public park or cemetery; or on any campus or grounds of a public school, college, or university.
- Hunt game mammals outside any area designated by a controlled hunt tag when such tag is required for that season.

Other Restrictions

It is unlawful to:

- Refuse inspection of any license, tag, or permit, and any wildlife taken, by an employee of

ODFW, any person authorized to enforce wildlife laws, or a landowner or agent of the landowner on their land.

- Refuse inspection of any gear used for the purpose of taking wildlife by an employee of the Oregon Department of Fish and Wildlife, or any person authorized to enforce wildlife laws.
- Hunt protected wildlife.
- Disturb or remove traps or snares of any licensed trapper while that person is trapping on public lands or on other land by landowner's permission.
- Disturb, damage, remove, alter, or possess any official ODFW signs.
- Knowingly provide false information to the Department or Commission on any report required by law.
- Counsel, aid or assist in any violation of the wildlife laws, or share in any of the proceeds of such violation by receiving or possessing any wildlife. Any person who violates this rule shall incur the penalties provided for the person guilty of such violation.

Hunter Orange

No person younger than 18 years of age shall hunt with any firearm for any game mammal or upland game bird (excluding turkey) unless the person is wearing in a manner visible from all directions a hat or exterior garment of hunter orange. "Exterior garment" means a shirt, jacket, coat, vest, or sweater. Hunter orange camouflage patterns are acceptable. "Hat" means any head covering.

Disguising Sex, Waste, Sale

It is unlawful to:

- Disguise the sex or kind of any wildlife while in the field or in transit from the field.
- Possess the meat or carcass of any deer, elk, pronghorn antelope, bighorn sheep, or Rocky Mtn goat without evidence of sex while in the field, forest, or in transit on any of the hwy's or premises open to the public in Oregon, except processed or cut and wrapped meat.

Evidence of sex for deer, elk, pronghorn

antelope, bighorn sheep, or Rocky Mountain goat is:

Option 1- Either the animal's scalp which shall include the attached eyes and ears if animal is female; or ears, antlers or horns, and eyes if the animal is male; or
Option 2 - reproductive organs (testicles, scrotum, or penis, if male; vulva or udder (mammary), if female) naturally attached to one quarter of the carcass or to another major portion of meat.

Applies to option 2 only:

* For Hunts with Antler or Horn

Restrictions: if the head is not attached to the carcass, in addition to leaving the testicles, scrotum, or penis naturally attached to one quarter of the carcass or to another major portion of meat, the head or skull plate with both antlers or horns

naturally attached shall accompany the carcass or major portions of meat.

* For White-tailed Deer Only Hunts and for Mule Deer Only Hunts: in addition to evidence of sex, (testicles, scrotum, penis, vulva, udder, mammary), either the head or tail shall remain naturally attached to one quarter of the carcass or to another major portion of meat as evidence of the species taken.

- Waste any game mammals or edible portions thereof, except that meat of cougar need not be salvaged. See definition on page 90. The duty to retrieve and to not waste does not justify otherwise criminal conduct including but not limited to trespass.
- Sell, trade, barter, exchange, or offer for sale, trade, barter, or exchange, any game mammal or parts thereof except as identified in Oregon Administrative Rule 635, Division 200.

Tagging, Possession and Transportation

- The owner of a game mammal tag that kills a game mammal for which a tag is issued, shall immediately remove in its entirety only the month and day of kill and attach the tag in plain sight securely to the game mammal. The tag shall be kept attached to such carcass or remain with any parts thereof so long as the same are preserved.
- No person shall have in possession any game mammal tag from which all or part of any date has been removed or mutilated except when the tag is legally validated and attached to a game mammal.
- When a game mammal or part thereof is transferred to the possession of another person, including a meat processor or taxidermist, a written record describing the game mammal or part being transferred and name and address of the person whose tag was originally attached to the carcass and the number of that tag shall accompany such transfer and shall remain with such game mammal or part so long as the same is preserved (see Wildlife Transfer Record Form form on page 84). The original tag should remain with the portion of the animal retained by the hunter.
- All game mammals in possession in the field or forest or in transit more than 48 hours after the close of the open season for such mammal must be tagged by ODFW or Oregon State Police.
- All game mammals or portions thereof shipped by commercial carrier must be tagged by ODFW or Oregon State Police.
- No person shall receive or have in possession any game mammal or part thereof which: (1) is not properly tagged; (2) was taken in violation of any wildlife laws or regulations; or (3) was taken by any person who is or may be exempt from jurisdiction of such laws or regulations.
- No person shall possess or transport any game mammal or part thereof, which has been illegally killed, found or killed for humane reasons, except shed antlers, unless they

have notified and received permission from personnel of the Oregon State Police or ODFW prior to transporting.

- No person shall possess the horns of bighorn sheep that were not taken legally during an authorized season.
- No person shall sell, lend, or borrow any big game tags.

Parts Ban

No person shall import all or parts of a cervid (deer/elk family) carcass if the cervid was killed in one of the states or provinces shown below with a documented case of Chronic Wasting Disease. Common cervid species include deer, elk, moose, and caribou.

The following parts are allowed:

- Meat that is cut and wrapped commercially or privately;
- Meat that has been boned out;
- Quarters or other portions of meat with no part of the spinal column or head attached;
- Hides and/or capes with no head attached;
- Skull plates with antlers attached that have been cleaned of all meat and brain tissue;
- Antlers (including velvet antlers) with no tissue attached;

- Upper canine teeth (i.e. buglers, whistlers, ivories);
- Finished Taxidermy heads.

Illegal parts brought into Oregon will be confiscated and persons may be liable for disposal expenses.

Chronic Wasting Disease (CWD)

The most important wildlife disease in North America, CWD, is a 100% fatal, infectious, transmissible spongiform encephalopathy (TSE) of deer, elk, and moose. The disease has not been detected in Oregon. In areas where this neurological disease occurs, it is spread by nose to nose contact between animals and through urine, feces and saliva infecting soils and habitats. CWD remains in the soil for an unknown number of years, continuing to infect animals that use infected sites.

If you plan on hunting outside of Oregon in areas with a documented case of CWD the importation of a cervid carcass or parts of a cervid carcass with brain or spinal column tissue is prohibited. "Parts Ban" regulations including a list of states and provinces where CWD has been found are shown on the map below.

Although CWD has not been documented in humans, public health and wildlife officials advise hunters to take precautions when pursuing or handling deer, elk, and moose that may have been exposed to CWD. Basic precautions include:

- Wear latex or rubber gloves when field dressing animals
- Bone out the meat, do not saw through the brain or bone, especially the backbone
- Minimize the handling of brain and spinal tissues
- Avoid consuming the meat from any animal that tests positive for the disease.

If you will be hunting in an area where CWD may occur, more detailed information regarding precautions to take when handling animals that may have been exposed can be found online at <https://datcp.wi.gov/Documents/CommonSense.pdf>.

General Weapons Provisions for Hunting Game Mammals:

Centerfire firearm

- 22 caliber rimfire are not legal for hunting big game. Legal .22 caliber centerfire firearms include common cartridges such as .222, .223, .22-250, .220 Swift.
- Fully automatic firearms prohibited.
- Semiautomatic rifles with a magazine capacity greater than five cartridges prohibited (except for western gray squirrel).
- Military or full-metal jacket bullets in original or altered form prohibited.

- Infrared, night vision, laser or any other sight that projects a beam to the target is prohibited.
- During centerfire firearm seasons, hunters may use any muzzleloader with any ignition type, except matchlock, any legal sight, any propellant, or any bullet type provided the weapon meets caliber restriction for the species.

Shotgun

- Shotgun is a smooth bore firearm, designed for firing bird shot and intended to be fired from the shoulder, with a barrel length of 18 inches or more and with an overall length of 26 inches or more.
- Shotguns equipped with rifled slug barrels are considered shotguns when used for hunting pronghorn antelope, bear, cougar, deer, or elk when centerfire rifles or shotguns are legal weapons.

Bow

- Broadhead blades must be fixed, unbarbed and at least 7/8" wide (except for western gray squirrel). It is illegal to hunt with or possess broadheads or arrows with mechanical or moveable blade when hunting game mammals, except western gray squirrel.
- No device secured to or supported by a bow may be used to maintain the bow at full draw.
- No electronic devices may be attached to bow or arrow, except lighted arrow nocks that have no function other than to increase visibility of the arrow.
- No device that supports or guides the arrow from a point rearward of the bow string when the bow is at rest (undrawn) may be secured to or supported by a bow's riser. Overdraws meeting this restriction are legal during archery seasons.

Muzzleloader

- During muzzleloader only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only the following restrictions apply:
 - » Scopes, and sights that use batteries, artificial light or energy are not allowed except for visually impaired hunters (a permit is required; please see page 25). Open and peep sights made from alloys, plastic, or other materials that do not have the properties described above are legal sights. Fiber optics and fluorescent paint incorporated into or on open or iron sights are legal.
 - » It is illegal to hunt with jacketed bullets, sabots, and bullets with plastic or synthetic tips or bases. Only the following projectile/bullet types are

allowed: a) Round balls made of lead, lead alloy, or federally-approved nontoxic shot material, used with cloth, paper or felt patches; (b) Conical bullets made of lead, lead alloy, or federally-approved nontoxic shot material, with a length that does not exceed twice the diameter; (c) Lead free copper conical bullets with a length that does not exceed twice the diameter.

- » It is illegal to hunt with centerfire primers as an ignition source, the muzzleloader must have an open ignition. See definition on page 90.

- » It is illegal to hunt with pelletized powders or propellants. Granular (loose) black powder and black powder substitutes are the only legal propellants.
- » No other firearm may be used for hunting during a muzzleloader-only season.
- » Muzzleloading firearms with revolving actions are prohibited.

HELP OREGON WILDLIFE

Hunters have a long history of supporting and conserving Oregon's wildlife. Continue that tradition by switching to non-lead ammunition. Non-lead ammunition is available for most rifles, handguns and shotguns.

High performance non-lead bullets have the same stopping power as lead, but leave fewer bullet fragments that can be swallowed by scavengers and other wildlife. Switching to non-lead ammunition means eagles, scavengers, other wildlife and humans will not be exposed to lead fragments in game meat.

Lead can be harmful to wildlife and humans. A nationwide ban on lead shot for waterfowl hunting is credited with saving millions of ducks, geese and waterfowl from lead poisoning. Birds of prey, scavengers and other wildlife can be harmed by eating meat containing lead fragments.

**DO YOUR PART TO HELP OREGON WILDLIFE.
GET THE LEAD OUT.**

FIREARM RIGHTS RESTORATION

Gun rights can be restored for many law-abiding citizens with past convictions. Use Oregon's laws to restore your family's hunting tradition. Call or visit us online to schedule a free consultation.

Youth Game Bird Hunting License (age 11 and under)		FREE

Oregon offers numerous youth hunting opportunities intended to promote a safe, enjoyable experience with an increased chance for success. License prices are reduced to make it easier for families to introduce kids to hunting.

Licensing Requirements

- The Youth License is a combination hunting/fishing/shellfish license.
- Youth 12 to 17 years of age must purchase a Youth License to hunt, participate in the big game controlled hunt drawing, or purchase preference points.
- Youth 11 years of age and under do not need a license to hunt game birds, small game, or unprotected wildlife except:
 - » A Youth License or free Youth Game Bird Hunting license is required in order to purchase turkey tags or apply for sage grouse hunts and waterfowl reservations.
 - » See Hunter Education requirements below.
- Youth 9 to 11 years of age and older may apply for preference point savers through the controlled hunt drawing provided they purchase a Youth License. The free Youth Game Bird Hunting License does not allow a youth to participate in the controlled hunt drawing or apply for preference points.
- Youth between 9 and 12 years of age may possess both a free Youth Game Bird Hunting License and a Youth License.
- A Youth License or Youth Sports Pac purchased by a youth 17 year of age will be valid for the entire calendar year even if the youth turns age 18 before the end of the calendar year.

Hunter Education

Before hunting, youth 17 years of age or younger must:

- Complete a Hunter Education Course (Any U.S. state, Canada or Mexico)

- Have in their possession a Hunter Education Certificate or a department issued document with their Hunter Education Certificate number to hunt anywhere except land owned by their parent or legal guardian. See exceptions under the Mentored Youth Hunter Program.

Hunter Education can be completed with a conventional classroom course or independent study with a hands-on field day. For more information visit: myodfw.com/articles/take-hunter-education-course

Hunter Orange

No person younger than 18 years of age shall hunt with any firearm for any game mammal or upland game bird (excluding turkey) unless the person is wearing in a manner visible from all directions a hat or exterior garment of hunter orange.

Youth Specific Regulations

- No youth 11 years of age or younger may hunt for big game except for youth participating in the Mentored Youth Hunter Program.
- Any youth 13 years of age and under must be accompanied by an adult 21 years of age or older while hunting on property other than land owned by their parent or legal guardian.

Controlled Hunts

- A Youth License is required for a youth to participate in the controlled hunt drawing.
- A youth 11 years of age may apply in the controlled hunt drawing provided the youth is 12 years of age or older and has completed a Hunter Education Course by

the time they participate in the hunt.

- Youth 9 to 11 years of age may purchase point saver applications in the controlled hunt drawing provided they possess a valid Youth License.
- Only youth 12 to 17 years of age at the time of the hunt may participate in Youth Controlled Hunts.
 - » Any youth participating in a Youth Controlled Hunt must be accompanied by an adult 21 years of age or older. Adults may not accompany more than two youths at time.
 - » Youth are not limited to applying for Youth Controlled Hunts and may choose to apply for other controlled hunts.

YOUTH CONTROLLED HUNTS (12-17 YEARS OLD)

100 series deer.....	pg 35
200 series elk.....	pg 53
400 series pronghorn.....	pg 57
600 series antlerless deer.....	pg 38
700 series bear.....	pg 63

Youth First Time Hunt Program

Resident youth are eligible to receive one buck deer (100 series), one antlerless deer (600 series) and one antlerless elk (200 series) provided they have not previously been successful in the controlled hunt drawing for that series. This program provides an opportunity for families to have a back-up plan that ensures beginning youth hunters will get a chance to hunt even if they are unsuccessful in the controlled hunt drawing.

Who May Apply:

- Resident youth 12 to 17 years of age. Youth 11 years of age may apply if they will be 12 years of age by the time they hunt. Youths may not hunt with "First Time" tags once they turn 18 years of age.
- Youth that applied but were unsuccessful for 100, 200, and/or 600 series controlled hunts in the current year controlled hunt drawing and have never drawn a controlled hunt for that respective series.

Eligible Hunts

- The Youth “First Time” Hunt Program applies to all controlled hunts that meet a minimum tag allocation:
 - » **Buck Deer (100 series):** at least 201 tags
 - » **Elk (200 series) antlerless only:** at least 51 tags
 - » **Antlerless deer (600 series):** at least 51 tags

How to Apply:

- If youth meet the criteria above, mail or fax a Youth “First Time” Program Hunt application to request a tag of their choice. No additional fee is required for this application. See myodfw.com/articles/hunting-opportunities-youth for an application and a list of qualifying hunts.
- Applications must be received after July 1 and before the hunt begins.
- Enter up to five hunt choices per hunt series to ensure receipt of an eligible hunt (see min. tag level, per hunt series above). The hunt choices may be different than the hunt choices made in the unsuccessful controlled hunt drawing.
- Youth will be assigned a tag in the first eligible hunt listed and be able to purchase the tag from a license agent a few days after their application is processed.
- Tag sale deadlines apply.

Important Things to Know:

- Youth must have completed a Hunter Education Course by the time they participate in the hunt.
- A youth loses eligibility for a “First Time” tag in a hunt series once they have been successful for any hunt choice in that series (including youth hunts and LOP tags), except for leftover tags.
- Preference points will not be used if participating in the “First Time” program.
- Youth that have applied for Point Savers in the respective hunt series for the current year are NOT eligible for a guaranteed “First Time” tag.
- Applications must be received before the hunt begins.
- Adults who apply in a party with a youth in the controlled hunt drawing and are unsuccessful will not receive tags if the youth requests a “First Time” tag.
- Youth can use their “First Time” options in any combination (all in one year, one per year, skip years between tags).
- For elk (200 series) hunts, only those hunts with a minimum of 51 tags and a bag limit of “one antlerless elk” are eligible for the Youth “First Time” Hunt Program.
- Youth can hunt in general seasons and use leftover tags if available without losing eligibility for “First Time” tag.
- “First Time” tags are not extra tags.
- Other hunters with appropriate tags may hunt with youth.

- Youths participating in the “First Time” program are not eligible to participate in the Mentored Youth Hunter Program for that particular hunt for that year.

Mentored Youth Hunter Program

The program gives unlicensed youth the opportunity to receive mentored, one-on-one field training on the ethics, safety, responsibility and enjoyment of hunting while being closely supervised by a licensed adult.

Youth Participation

Resident and nonresident youth may participate in the Mentored Youth Hunter Program, without first passing an approved Hunter Education Program, provided the youth:

- **Is 9 to 15 years of age.** At age 16, a youth is no longer eligible to participate in the Mentored Youth Hunting Program and must pass an approved hunter education program, possess a Youth License, and appropriate tags.
- Hunts while accompanied by a supervising hunter who is 21 years of age or older and who has a valid license and tag(s) for the dates, area and species being hunted.
- Completes the free annual registration. Register Online at: myodfw.com/articles/mentored-youth-hunter-program or at your local license agent.
- Possesses a signed registration document while hunting.
- Follows all hunting regulations.
- Remains under the immediate control of the supervising hunter at all times while the youth is in possession of any legal weapon for the hunt.
- Is wearing a hunter orange exterior garment (shirt, jacket, coat, vest, or sweater) or hat when hunting with a firearm for game mammals or upland birds (except turkey). The exterior garment or hat must have hunter orange visible in all directions (360 degrees).

Supervising Hunter

The supervising hunter shall:

- Have a valid hunting license and tag(s) valid for the dates, area and species being hunted.
- Maintain immediate control of the mentored youth hunter at all times while the youth is in possession of any legal weapon for the hunt.
- Ensure that all Oregon hunting regulations are followed.
- Be responsible and accountable for all actions of the mentored youth hunter while engaged in hunting.
- Supervise only one mentored youth hunter at any given time while engaged in hunting.

- Review information on safe hunting practices provided on the Mentored Youth Hunter registration document with the youth being mentored.
- Ensure no more than one legal weapon for the hunt is possessed collectively by the supervising hunter and the youth being mentored at any time while engaged in hunting.

Seasons and Bag Limits

- Any wildlife harvested by the mentored youth hunter shall be counted towards the supervising hunter’s bag limit.
- A youth is not eligible to participate in the Mentored Youth Hunting Program if the youth possesses their own valid hunting license and/or tag(s) valid for the dates, area and species being hunted.
- The Mentored Youth Hunting Program is not applicable to designated youth only seasons and hunts.
 - » This is because the mentored youth can only take an animal the supervising hunter could legally harvest and the supervising hunter could not legally harvest an animal during a youth only hunt.

Mentored Youth Preference Points

- Youth participating in the Mentored Youth Hunting Program will receive one mentored youth preference point for each year the youth registers for the program.
- The mentored youth preference points will be “banked” and held in the licensing system with no expiration date. To redeem banked points, the mentored youth must fill out the form available online at: myodfw.com/articles/mentored-youth-hunter-program or by contacting 503-947-6102
- Once Mentored Youth Preference Points are redeemed, they are converted to the Preference Point System and are subject to the Oregon Administrative Rules that govern preference points.
- Redeemed points must be used at one time and may not be split among controlled hunt series.

LANDOWNERS

Landowner Specific Rules and Regulations

- A resident does not need a license to hunt on land upon which the person resides and is owned by the person or a member of the person's immediate family, unless they are hunting for a species for which a tag is required or are applying for big game tags.
- A landowner or landowner agent does not need a hunting or trapping license to take predatory animals on land they own, lease, lawfully occupy, possess, or have charge or dominion over.
- Landowners or their agents may hunt predatory animals with a spotlight, and from a vehicle on lands that they legally own or occupy.

Landowner Preference Program

- Landowners with a minimum of 40 contiguous acres may qualify for controlled hunts tags on their property. In order to qualify, lands must be registered with

ODFW and hunters must apply for hunts through the controlled hunt system. Registration and further information on the Landowner Preference Program can be found at: http://www.dfw.state.or.us/resources/hunting/big_game/controlled_hunts/landowner.asp or by contacting ODFW Controlled Hunts at 503-947-6102. Registration packets can also be acquired through local ODFW offices.

- LOP tags are only valid within the registered property boundaries for which the tag is issued.
- Antelope hunts with an either sex or a one doe or fawn bag limit are available to landowners or immediate family through the LOP program. All LOP antelope tags will be limited to a doe/fawn bag limit.
- All landowners and eligible applicants must purchase controlled hunt application prior to the deadline. Applications for LOP tags must indicate a landowner preference hunt choice on their application.
- LOP tags are not available for 223T or Aug. 1 – Dec. 31 youth elk hunts. In the following hunts LOP tags will be limited to five tags or 10% of the total controlled hunt tags, whichever is greater: elk hunts; 226R, 226Y, 248A1, 249A1, 250X, 251A, 252A1, 253X, 254R1, 254Y1, 255R1, 255Y1, 256R1, 256Y1, 259Y, 261X, 262X and 263X; buck deer hunts; 141C, 142B, 154C, 156R2, 157A, 165R, 168R2, and 170R3.

The number of tags allowed per hunt series is based on registered landowner acreage.

UNIFORMED SERVICES AND DISABLED VETERANS

The information on this page is a summary of regulations and opportunities related to Disabled Veterans and Members of the Uniformed Services.

Members of the Uniformed Services

“Uniformed Services” includes Army, Navy, Air Force, Marine Corps and Coast Guard, or their reserve components; the National Guard or Oregon National Guard, commissioned corps of the National Oceanic and Atmospheric Administration, and the Public Health Service of the United States Department of Health and Human Services detailed with the Army or Navy.

Resident

The requirement for a person to reside in Oregon for at least six months to be considered a resident is waived for Members of the uniformed services of the United States who:

- Are permanently assigned to active duty in this state, and their spouse and dependent children; or
- Reside in this state while assigned to duty at any base, station, shore establishment or other facility in this state; or

- Reside in this state while serving as members of the crew of a ship that has an Oregon port or shore establishment as its home port or permanent station.

Nonresident Members of the Uniformed Services

- Must obtain a valid nonresident hunting license
- A nonresident member of the uniformed services may purchase licenses, tags, and permits at resident rates. (See Table)

Tag Sales Deadlines

Members of the uniformed services with Oregon resident status will be permitted to purchase their general season tag after the deadline.

Uniformed Services Active Duty Controlled Hunt Tags

Oregon’s active duty members of the uniformed services stationed outside of the state can obtain a controlled deer, elk, or spring bear hunt tag while on leave during the season. To qualify for these tags the individual must be an Oregon resident currently stationed outside of the state.

- To purchase the tag the active members of the uniformed services must provide the following information to the local ODFW District office responsible for issuing the tag:
 - » A copy of an active duty military ID.
 - » A copy of current leave papers to document they are currently stationed outside of Oregon.

- » A valid Oregon resident hunting license.
- Tags will be issued on a first-come, first-served basis until the authorized number of tags have been issued.
- Tags may be issued for:
 - » Spring bear hunts, controlled deer or elk hunts with a bag limit of “antlerless”, or “spike only”, or “antlerless or spike”, that have a minimum of 20 tags.
 - » Controlled deer or elk hunts with a bag limit that allows buck deer or bull elk with two or more points on one antler, not counting the brow tine, to be harvested, that have a minimum of 60 tags authorized by the Commission.
 - » Additional tags for active members of the uniformed services for each controlled hunt will not exceed 10% of the tag number authorized by the Commission.
- Active members of the uniformed services Controlled Hunt Tags cannot be authorized for controlled hunts occurring on the Starkey Experimental Forest, Hart Mountain NAR, or Umatilla NWR.
- All hunt specific regulations for the hunt where a tag is issued will apply.
- Tag recipient must pay the standard resident price for the tag.
- Hunter must provide harvest and effort information to the issuing office within five business days after the closing date of the hunt.
- For further information, please contact an ODFW District Office to make an appointment.

Disabled Veterans

Disabled Veteran License

To qualify for a free disabled veteran license you must have at least a 25% disabled rating from any branch of the Armed Forces of the United States.

Disabled Veterans are eligible to purchase an elk tag at a reduced price. For an application visit: dfw.state.or.us/resources/licenses_regs/pioneer_veteran_licenses.asp

Disabled Veterans Criteria for Oregon Disabilities Hunting and Fishing Permits

To be considered a person with a disability under the wildlife laws, a disabled veteran must provide: Written proof that the last official certification of record by the United States Department of Veterans Affairs or any branch of the Armed Forces of the United States shows the person to be at least 65 percent disabled (ORS 496. 018).

See page 25 for more information regarding the Oregon Disabilities Hunting and Fishing Permit program.

DISABILITIES HUNTING AND FISHING PERMIT INFORMATION

Oregon makes hunting and fishing more accessible for people with permanent disabilities.

Who May Apply

In order to be considered a person with a disability under the wildlife laws, a person shall provide either:

- Written certification from a licensed physician, licensed physician assistant or certified nurse practitioner which states that the applicant:
 - » Is permanently unable to walk without the use of, or assistance from, a brace, cane, crutch, prosthetic device, wheelchair, scooter or walker;
 - » Is restricted by lung disease to the extent that the person's forced expiratory volume for one second, when measured by a spirometer, is less than 35 percent predicted, or arterial oxygen tension is less than 55 mm/Hg on room air at rest;
 - » Has a cardiac condition to the extent that the person's functional limitations are classified in severity as Class III or Class IV, according to standards established by the American Heart Association;

- » Has a permanent, physical impairment that prevents the person from holding or shooting a firearm or bow or from holding a fishing rod in hand; or
- » Has central visual acuity that permanently does not exceed 20/200 in the better eye with corrective lenses, or the widest diameter of the visual field is no greater than 20 degrees; or
- Written proof that the last official certification of record by the United States Department of Veterans Affairs or any branch of the Armed Forces of the United States shows the person to be at least 65 percent disabled (ORS 496. 018).

Accommodations

An "Oregon Disabilities Hunting and Fishing Permit" holder may:

- Hunt from a parked motor-propelled vehicle except on any public road or Hwy, or within Cooperative Travel Management Areas. A public road is the entire right of way of any road over which the public has a right of use. Public roads include, but are not limited to, road related structures that are in the right of way such as tunnels, bridges, or similar structures. Roads on federal, state, or local

government lands are public roads. Hunting from a parked motor-propelled vehicle is allowed on private land with the landowner's permission and on public land where offroad travel is permitted.

- Have an able-bodied companion accompany them and kill any animal wounded by the permit holder. The wounded animal must be killed using a legal weapon for the season and species designated on the tag. The companion must immediately attach the permit holder's tag to the carcass of the animal. The companion is not required to possess a hunting license or tag, except a person accompanying a visually impaired hunter is required to possess a valid hunting license (OAR 635-065-0090(3))

Assistance From Others

Disabilities listed above must be permanent. A Disabilities Hunting and Fishing Permit will not be issued for temporary disabilities. Permits are valid for five calendar years. To renew a permit, the holder must submit a new, updated application form.

A person who is not visually impaired and who accompanies a hunter who is visually impaired that possesses an "Oregon Disabilities Hunting and Fishing Permit" may:

- assist the hunter in selecting a game animal or bird;
- assist the hunter aiming or sighting a firearm;
- advise the hunter when to fire a firearm;
- shoot a game animal or bird on behalf of the hunter while in the immediate presence of the hunter; and
- tag and retrieve game animals and birds on behalf of the hunter.

The person accompanying a hunter who is visually impaired is required to possess a valid hunting license and may also hunt game animals or birds if the person possesses the appropriate tags, permits, validations and stamps for the area and time period.

White-tailed deer are protected in all Western Oregon units except controlled hunts in Southwest Oregon that specifically list white-tailed deer in the bag limit.

ATTENTION YOUTH HUNTERS: EXTENDED WESTERN OREGON DEER SEASON

To increase youth hunting opportunity, the Western Oregon general buck deer firearm season is extended two days for youth 12-17 years of age. Youth hunters with an unfilled Western Oregon general season deer tag, an unfilled W. High Cascade (119A), or an unfilled Hood-White River (141A) controlled hunt tag may hunt the area of the Western Oregon general deer season Nov. 3-4, 2018. This opportunity is not available to Mentored Youth Hunt Program participants as each youth hunter must have their own tag to participate. The tag sale deadline is Sept. 28, 2018. Bag limit: One buck having not less than a forked antler.

COLUMBIAN WHITE-TAILED DEER

Columbian white-tailed deer (CWTD) were once common throughout the valleys of western Oregon. Two populations of CWTD remain; one along the lower Columbia River and the other in the Umpqua Basin near Roseburg. After being federally listed in 1973, the Oregon populations recovered sufficiently and were removed from the state Endangered Species list in 1995. Efforts by ODFW, other state and federal agencies, Douglas County and private landowners led to the removal of the Roseburg population of the CWTD from the federal Endangered Species list in 2003.

Today, CWTD continue to be protected in all of Western Oregon except for a limited number of controlled hunts in the Roseburg area that specifically list CWTD in the bag limit. Hunters are responsible for distinguishing CWTD from black-tailed deer.

Black-tailed Deer Hunters!

The Oregon Department of Fish and Wildlife needs your help by providing teeth from the black-tailed deer you harvest.

The age of the deer taken (as determined by analyzing the teeth) will provide critical information used to develop a population estimate for black-tailed deer in Oregon.

Please be sure to pick up an envelope at any ODFW office or POS license agent to submit teeth from any black-tailed deer you harvest this year.

Instructions on how to properly remove the correct teeth are printed on the tooth envelope.

Thank you for your cooperation in providing this important information.

For more information, the Oregon Black-tailed Deer Management Plan is available on the department Web site: <http://www.dfw.state.or.us/wildlife/>.

ELK HUNTERS— DON'T SHOOT A MOOSE!

Moose continue to expand their range through out the western states including Oregon. A resident population of 50-60 moose now occupies portions of the Walla Walla and Wenaha Wildlife Management Units north of Elgin. Moose are also frequently sighted in adjacent management units particularly the Sled Springs, Chesnimnus, Snake River, Imnaha and Pine Creek Wildlife Management Units. Moose are generally larger than elk and vary in color from dark brown to black; nevertheless, moose are occasionally mistaken for other big game species, particularly elk. There are no hunts for moose, but moose occur where there are elk hunts. ODFW is reminding hunters to be sure of their target.

ELK HOOF DISEASE

ODFW is asking hunters to report limping elk or animals with abnormal hooves. Report sightings to the ODFW's elk hoof disease online reporting page http://www.dfw.state.or.us/wildlife/health_program/elk_hoof_disease/ or call or email ODFW's Wildlife Health Lab (1-866-968-2600 / Wildlife.Health@state.or.us). Hoof Disease can be caused by a bacterial infection causing severe lameness in elk resulting in deformed, overgrown, infected, or sloughed hooves www.dfw.state.or.us/wildlife/health_program/elk_hoof_disease/. Hunters finding hoof abnormalities in their harvested animals are asked to take pictures and save all hooves of elk with hoof deformities. Hoof disease does not affect the meat of elk harvested by hunters and poses no risk to human health. However, lame elk may be in poorer body condition and appear thin.

ELK SEASONS

Additional Regulations

Successful applicants for controlled elk archery hunts will need to purchase their controlled archery elk tag that will be valid for both the general archery elk season and controlled archery season. Tags must be purchased by the day before general archery season begins. Hunters who harvest an elk during the general archery hunting season may not hunt in the controlled archery season.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

6th Edition Record Book for Oregon's Big Game Animals

We are very excited about the NEW 6th Edition of the Record Book for OREGON'S BIG GAME ANIMALS! Since size really does matter, we have significantly increased the total number of entries and photos since the 5th Edition. Our newest edition is lavishly illustrated, all color, with great attention to detail! It is a definitive source of big game hunting in Oregon. Now with more than 8,000 entries in four categories: Rifle, Archery, Black Powder and Shed Antlers. Species include bear, cougar, whitetail, blacktail, mule deer, rocky mountain, Roosevelt elk, bighorn sheep, wild turkey and mountain goat. This 6th Edition also features hunting stories by the actual hunters as well as a collection of rare historical photographs and exciting color photos of record-setting big game trophies!

To order, go to www.nwbiggame.com or call 541-566-0149

General Bear Regulations

Within a calendar year, and during authorized seasons, a hunter may harvest:

- One bear with a general fall black bear tag
- One bear with a SW Additional fall black bear tag
- One bear with a controlled or SW limited spring black bear tag
- It is unlawful to take cubs less than one year old or sows with cubs less than one year old.
- Using bait to attract black bear and using dogs to locate and tree black bear is prohibited.
- It is unlawful to hunt with a centerfire or muzzleloading rifle without a valid (used or unused) deer or elk tag during certain time periods and areas; see page 16.

Mandatory Check for All Harvested Bears

The skull of any bear taken must be presented to an ODFW office or designated collection site within 10 days of the kill to be checked and marked; the hunter is responsible to have it presented.

- Skull must be unfrozen when presented for check-in and please prop open mouth so tooth can be accessed. Inserting a stick or dowel between the molars prior to freezing/drying out will help keep jaw open.
- Check-in at ODFW offices must occur by appointment during normal business hours (Mon. - Fri., 8-5). Please call ahead to make arrangements to have the bear checked.
- Hunters are required to check-in the skull only.
- Hunters are requested but not required to submit the reproductive tract of any female bear harvested, see diagram below.

- At check-in, hunters must provide:
 - » Date and location including Wildlife Management Unit of harvest.
 - » Complete hunting information including bear tag number. The bear tag, a copy of the tag, or a completed "Wildlife Transfer Record Form" are alternatives for providing the needed information.
- Hunters must still complete mandatory reporting via the internet or toll free line.

COLLECTING THE REPRODUCTIVE TRACT FROM A FEMALE BLACK BEAR OR COUGAR

1. Label a plastic bag with: Tag Number, Date of Kill, Unit Number and Name, County, and Your Name and Address. Ziplock type kitchen or freezer bags work very well for this purpose.
2. Locate the "Y" shaped reproductive tract beneath and slightly ahead of the pelvis or hip bones. It usually is necessary to move some of the intestines and other organs aside to locate the entire tract, including both ovaries and the uterus.
3. Cut the uterus immediately forward of the bladder. Use caution when handling the bladder and cutting the reproductive tract from the body cavity to insure the meat is not contaminated with urine from the bladder.
4. Place the entire reproductive tract in the labeled plastic bag and seal.
5. Preserve specimens by freezing as soon as possible and submit to any ODFW district office or check station.

DON'T FORGET TO REPORT

Every hunter who purchased a deer, elk, cougar, bear, pronghorn antelope or turkey tag needs to report. Complete a survey for every tag you purchased — even if you didn't hunt or weren't successful. Visit myodfw.com/articles/report-your-hunt

COUGAR SEASONS

General Cougar Regulations

Statewide Season: Jan. 1 – Dec. 31

Mortality Quotas: Cougar Quota Zones will be closed to cougar hunting if the zone quota has been reached. However, quotas are typically not met. See table below for zones and quotas. Quota information is updated regularly at: myodfw.com/big-game-hunting/species/cougar

Additional Tag: An “additional” cougar tag may be purchased throughout the season; however, hunters must purchase the general season tag prior to the tag sale deadline to be eligible for the additional tag.

Bag Limit: One cougar per tag, except it is unlawful to take spotted kittens or females with spotted kittens.

Mandatory Check for All Cougar

- Any cougar taken must be presented to an ODFW office within 10 days of the kill to be checked and marked; the person who took the animal is responsible to have it presented.
- Check-in must occur by appointment during normal business hours (Mon. - Fri., 8-5). Please call ahead to make arrangements to have the cougar checked.
- Hunters are required to check the unfrozen hide with skull and proof of sex attached
- To make check-in easier, ODFW biologist request hunters use a stick to hold the mouth open so teeth are easier to access
- Hunters are required to submit the reproductive tract of any female cougar taken (see page 61)
- At check-in, hunters must provide
 - » Date, and location including Wildlife Management Unit of harvest.

- » Complete hunting information including cougar tag number. The cougar tag, a copy of the tag, or a completed “Wildlife Transfer Record Form” are alternatives for providing the needed information.
- Hunters must still complete mandatory reporting via the internet or toll free line.

Hunter Ethics

As a hunter, you are responsible to adopt and follow a **personal code of ethics** that reflects your values

and your respect for wildlife, hunting and pass on the sport of hunting to those who come after you. Remember the following points to help ensure the future of Oregon’s hunting heritage.

Respect Landowners

- Ask for permission to hunt well before you plan on hunting.
- Leave all gates the way you find them.
- Follow all landowner restrictions.
- Offer to share part of your harvest with the landowner.

Respect the Resource

- Leave the land better than you found it.
- Adhere to fair chase rules.
- Know your capabilities and limitations as a marksman.
- Harvest no more than you will use, and take care of what you take.
- Abide by game laws and regulations.

Report hunting violations to the Oregon State Police at 1-800-452-7888 or dial *OSP (*677).

Respect Others

- Follow safe firearm handling practices and insist your hunting partners do the same.
- Know what is beyond your target. Shot pellets can be fatal to both people and dogs.
- Don’t interfere with another person’s hunt.
- If mentoring a youth hunter, be sure to pass on safe, responsible and ethical knowledge and skills.
- Wear hunter orange when hunting.

Be Safe – Be Seen.

Small game species provide a variety of hunting opportunities throughout the state and are an excellent way to introduce new hunters to hunting. Only the appropriate hunting license is necessary to hunt small game (no tags or permits). There are three major categories of small game in Oregon, Western Gray Squirrel, unprotected mammals, and furbearers.

Western Gray Squirrel

The **Western Gray Squirrel** is a “Game Mammal”. A hunting license is required to hunt Western Gray Squirrels. Western Gray Squirrels can only be hunted during the seasons listed below.

White River - Hood

Open Season: Sept. 8 - Oct. 14

Bag Limit: 3 squirrels daily.

Possession Limit: 6 in possession.

Open Area: White Rvr and Hood units.

Western Oregon

Open Season: Aug. 25 - Nov. 7

Bag Limit: 5 squirrels daily.

Possession Limit: 15 in possession.

Open Area: All units west of the eastern boundary of the Santiam, McKenzie, Indigo, Sprague and Interstate units. Exception: No bag limit or closed season in that part of the Rogue Unit south of Rogue Rvr and S Fork Rogue Rvr and north of Hwy 140.

Unprotected Mammals

Unprotected mammals are not covered under the game mammal, furbearer, or sensitive species rules. For unprotected mammals, there are no closed seasons or bag limits. However, a hunting license is required and all general hunting regulations still apply. Commonly hunted unprotected mammals include coyote, cottontail rabbits, black-tailed jackrabbit, opossum, nutria, California ground squirrel, and Belding’s ground squirrels.

- **Coyote:** Both mouth blown and electronic call are legal. Note, if calling coyotes and interested in taking a bobcat, fox, bear, or cougar, if they come to the call, it is necessary to have the appropriate licenses and tags. Bear and cougar require tags, Fox and bobcat require a Hunting License for Furbearers; bobcat also require a Bobcat Record Card. (See Furbearers information on this page.)
- **Ground Squirrel Hunting:**
 - » In eastern Oregon, the medium sized **Belding’s ground squirrels** (often

referred to as “sage-rats”) are typically hunted from February – July, then they return to their burrows, where they spend the next six to eight months. Most “sage-rat” hunting is in pastures and alfalfa fields so getting permission from the landowner is necessary.

- » **California ground squirrels** (“grey diggers”) can be found in western and central Oregon; they are one of the larger ground squirrels. While they can climb, if startled they head for their burrow, which is another way to distinguish California ground squirrels from tree squirrels species that are protected and usually climb a tree to escape. For more information on Oregon’s squirrels, check <http://www.dfw.state.or.us/species/mammals/squirrels.asp#Top>.
- **Rabbits and Hares** are found throughout Oregon.
 - » **Mountain cottontails** are found throughout eastern Oregon, primarily in areas with rock outcrops or rimrock where they use the small gaps between rocks to escape.
 - » **Black-tailed jackrabbits** are primarily hunted in eastern Oregon in the most open, driest “desert” habitats. Black-tailed jackrabbits can also be hunted in the dry habitat around the outside of alfalfa fields where they forage during the night.
 - » **Snowshoe Hares** inhabit the mountain ranges of Oregon. Some snowshoe hares, particularly in the Coastal Range, may not turn white in the winter. Few people hunt for snowshoes in Oregon, they tend to live at high elevations where access is difficult in the winter. In western Oregon, like the brush rabbit (a small species of cottontail that is rarely hunted), snowshoes take advantage of dense cover to escape. More information on Oregon’s rabbits and hares can be found online at myodfw.com/wildlife-viewing/species/pikas-rabbits-and-hares.

Furbearers

“Furbearers” include beaver, bobcat, marten, mink, muskrat, otter, raccoon, red fox and gray fox. To hunt furbearers a Furtaker’s License or a Hunting License for Furbearers is required. For seasons, bag limits and more information please refer to the current “Oregon Furbearer Trapping and Hunting Regulations”, available at any ODFW office, online at http://www.dfw.state.or.us/resources/hunting/small_game/, or by contacting Oregon Department of Fish and Wildlife, Trapper Education, 4034 Fairview Industrial Dr. SE, Salem, OR 97302; 503-947-6000.

Feral Pigs

Feral Swine, more commonly known as Wild Pigs, are an invasive, non-native species in Oregon that destroy important habitat. Luckily there are very few feral swine in the state and they are located almost entirely on private land.

It is legal to hunt feral swine year round on public land. There are no bag limits and hunters must have a valid hunting license. On private land, feral swine are defined as “predatory animals”. Hunting feral swine on private land does not require a hunting license, but you must have landowner permission to act as their agent.

See The Oregon Department of Agriculture Oregon, Administrative Rule 603-010-0055 for the criteria to determine if a pig is considered to be a “feral swine” and legal to harvest.

PREMIUM HUNTS

Ever wish that your deer, elk or antelope season lasted months instead of days or weeks? Or that you could hunt during the rut? Premium Hunts offer you the opportunity for just that! These hunts give any hunter a chance to draw an additional tag available in nearly every unit with existing deer, elk, or pronghorn hunts. With a Premium Hunts tag, you have months-long deer, elk and pronghorn seasons and an either sex, no antler restriction bag limit. There are no preference points associated with these hunts, so every hunter will have the same chance every year in the random draw. The hunts are not once-in-a-lifetime, so can be applied for and drawn again.

Application Deadline Date: May 15. No party applications. Premium hunts are in addition to controlled and general season tags.

Applications: Hunters may submit one hunt application per premium hunt series, and include up to five hunt choices per application. Standard application fee applies. Preference points, landowner preference tags and guide and outfitter tags are not available for these hunts. Residents and non-residents may apply and have equal opportunity to draw.

Tag Sale Deadline: The day before the hunt begins. Standard tag fees apply.

Bag Limit: One animal. Premium Hunt deer tags are good for any species of deer for which there is a hunt in that unit.

Hunt Area: Entire Wildlife Management Unit unless indicated with an asterisk(*). See page 107 for controlled hunt boundary descriptions.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

One lucky winner will be drawn for each hunt at the Annual Oregon Hunters Association convention May 12, 2018 at Seven Feathers Casino, Canyonville, OR.

Raffle Rules:

- Residents and nonresidents may purchase raffle tickets.
- **Incomplete or altered tickets will not be accepted.** All tickets must include a name, address, and telephone number. If this information is not pre-printed on your ticket, you must write it in. Deer and elk tickets must also include a hunt choice selection.
- **All raffle ticket sales are non refundable.**
- To designate the ticket to another person you must include both the first and last name of the designated tag recipient on the raffle ticket prior to submitting the ticket. If these are not included prior to submitting the ticket, the tag will be automatically designated to the entrant named on the pre-printed portion of the ticket.
- Each tag will be issued to the designated tag recipient on the winning ticket and cannot be transferred.
- All raffle hunts are in addition to controlled and general season tags.
- There is no limit on the number of tickets entered by any one individual.

- One winner and two alternates will be drawn for each raffle hunt.
- If an individual is drawn as the winner of more than one hunt for the same species, the department will issue that person the first raffle tag drawn for that species.
- Individuals who purchase a deer auction tag are not eligible to win a deer raffle tag (and vice versa); individuals who purchase an elk auction tag are not eligible to win an elk raffle tag (and vice versa).

How to Purchase Raffle Tickets:

- Raffle tickets can be purchased from any point of sale agent, online at www.odfw.com/online_license_sales, or by mail/fax using the order form on page 71, December 1, 2017 through April 30, 2018. Deer and elk 40 and 100 ticket packages will only be available through the Salem headquarters or by mail/fax order.
- Tickets will be pre-printed with the name, address, and telephone number associated with the hunter ID provided to the point of sale agent or entered on the order form. To have these tickets mailed to a different

address, you must complete the "mail to" section on the order form.

- For deer and elk tickets: You have the option to pre-print your hunt choice on your raffle tickets.
 - If you choose to have your tickets pre-printed with a hunt choice, the choice must be made on a per-package basis.
 - If you wish to make multiple hunt choices on different tickets from the same package, you must choose "No Hunt Selection". You must then manually mark your hunt choices before submitting the tickets.
 - You must indicate the number of packages that you would like to be printed with a particular hunt choice.
- A summary of raffle tickets sold can be found at: myodfw.com/articles/big-game-raffle-and-auction-hunts. This information will be updated as it is available.

BIG GAME RAFFLE TICKET MAIL/FAX ORDER FORM

If you do not select a hunt choice at time of ticket purchase, the hunt choice field will be left blank. A hunt choice must be selected (for deer or elk) before tickets are entered into the drawing.

MAP AVAILABILITY

There are many online resources available for hunters to determine public vs. private land, wildlife management unit and controlled hunt boundaries, travel management areas, ODFW wildlife areas and see satellite images of your hunting areas.

Visit www.dfw.state.or.us/maps for weblinks to:

- Wildlife Management Unit Boundary Maps
- Select Controlled Hunt Boundary Maps
- ODFW Wildlife Area Maps
- Access and Habitat Hunting Area Maps
- Travel Management Maps

ODFW produces a statewide wildlife management unit boundary map. This map can be ordered online or is available for sale at ODFW Salem and Region offices. These boundaries can also be viewed at oregonhuntingmap.com

Hunters who successfully draw a controlled hunt for which a map is provided, will be mailed a map prior to the hunt. These hunts are indicated by “[MAP]” in the hunt description; they are also available online.

Access & Habitat and Travel Management Area maps can be downloaded for free as GEOpdf files online. A special App is needed. Avenza is an example of a free App for your smartphone, tablet or computer to follow your location, identify boundaries, and save waypoints while hunting.

Many new technologies, such as onXmaps, are available to hunters via private businesses that produce public land maps and private landowner name/boundary maps for your GPS, smartphone, or computer.

Additional resources for paper maps are available at:

- U.S. Bureau of Land Management Land Maps
503-986-3154
<https://www.blm.gov/services/mobile-gis>
- U.S. Forest Service Available at their offices or <https://www.fs.fed.us/visit/maps>

- Oregon Department of Forestry Protection District Maps (available hard copy or GEOpdf; many show Wildlife Management Unit Boundaries)
503-945-7200
<http://www.oregon.gov/ODF/Pages/index.aspx>

<http://www.oregon.gov/ODF/Pages/index.aspx>

- Harney County produces printed maps of ODFW Management Units in Central and Southeast Oregon. They can be purchased online at: <https://www.co.harney.or.us/index.php/oregon-hunt-maps>

- A number of private companies produce maps for specific wildlife management units. These are available at many sporting goods stores.

Oregonhuntingmap.com

ODFW has a new hunting map to help you find your next spot. With new features you can:

- ✓ Search by species
- ✓ Search by location
- ✓ Show landownership
- ✓ Show property boundaries
- ✓ Find Lat/Long coordinates
- ✓ Show wildlife management units
- ✓ And more!

Because the map is based on Google Maps, you'll be able to scout areas for habitat and terrain. Before heading out to the field, check out Oregonhuntingmap.com

OREGON DEPARTMENT OF FISH AND WILDLIFE 

HUNTERS — GET THE STATEWIDE WILDLIFE MANAGEMENT UNIT MAP

A statewide hunting unit map is available from the Oregon Department of Fish and Wildlife. Cost of the unit map is \$5.

This map includes big game unit boundaries and denotes land ownership and landmarks. This map includes a written description of each management unit, along with additional information hunters will find helpful. It is printed in color on high quality, durable paper.

This map can be ordered online at http://www.dfw.state.or.us/resources/hunting/big_game/units/index.asp or visit your local ODFW Office.

WESTERN OREGON WILDLIFE MANAGEMENT UNIT BOUNDARY DESCRIPTIONS

Wildlife Management Units

For the purpose of managing Oregon's wildlife, the state has been divided into separate wildlife management units. Unit numbers are identifiable in smaller subunits by the last 2 digits of the number assigned to the rule description.

Maps are available from the Bureau of Land Management (BLM), National Forest (NF), or Oregon Department of Forestry (ODF), as indicated following each description.

COOPERATIVE TRAVEL MANAGEMENT AREAS

Through cooperative agreement, motor vehicle use is limited to specific roads for dates and areas listed below. Maps of most areas will be available by Sept. We do not carry maps of areas that are easily plotted on forestry maps. Old maps should not be relied on because roads open to vehicles may change.

There are two methods of posting roads for motorized travel:

1. Negative marking in which closed roads are marked by signs, gates, berms, designated on maps, etc.
2. Positive marking in which open roads are marked by round green reflectors (areas below where round green reflectors are used are highlighted in **green**), orange carsonite posts, designated on maps, etc.

A TMA may use more than one method, for example TMAs with positive markings may also use signs for some situations, such as confusing intersections. No person shall shoot from or across a public Rd or railroad right-of-way, except that persons legally hunting on closed Rds within Cooperative Travel Management Areas (TMAs) are not violating current prohibitions on shooting from or across a public Rd. The same is true for other Rds closed to use of motor vehicles by the public (See WA Regs. pages 85-88). There are additional travel management programs being implemented by other public agencies and private landowners. ODFW has no information for Rd closures not listed on these pages. Hunters need to contact the land management agency or landowner to determine the extent of such closures before going hunting.

* Signifies TMAs that have maps.

ACCESS AND HABITAT "WELCOME TO HUNT", "ACCESS AREA" REGULATIONS

The Department, through the Access and Habitat (A&H) Program, provides hunting access to approximately 35 "Access Areas" on private land.

In Access Areas funded by the Access and Habitat Program that are Welcome to Hunt, hunters are required to follow the area regulations printed on the map produced by the Oregon Department of Fish and Wildlife for each Access Area. Specific regulations for each Access Area can be found through the Oregon Hunting Map at: <http://www.oregonhuntingmap.com/>.

Maps are also available in map boxes at TMA entrances, local District ODFW offices, and at ODFW HQ in Salem.

Natural Resources Conservation Service (NRCS) grant provides access to 250,000 acres of Northeast Oregon timberlands. Access & Habitat license dollars along with funds from the NRCS are providing year round public access to 250,000 acres of private timberlands managed by Hancock Forest Management in northeast Oregon. The purpose of the NRCS Voluntary Public Access and Habitat Incentive Program grant, funded by the 2014 Farm Bill, is to encourage owners and operators of privately-held farm, ranch and forest land to voluntarily make that land available for access to the public for wildlife dependent recreation including hunting, fishing and wildlife viewing.

WILDLIFE TRANSFER RECORD

When a game mammal or part thereof is transferred to the possession of another person, a written record (use form below) describing the game mammal or part being transferred indicating the name and address of the person whose tag was originally attached to the carcass and the number of that tag shall accompany such transfer and shall remain with such game mammal or part so long as the same is preserved.

DISPLAY YOUR PARKING PERMIT AT WILDLIFE AREAS

Don't forget to display the parking permit that comes with your hunting license on your vehicle at the following wildlife areas: Coyote Springs, Ken Denman, EE Wilson, Elkhorn, Fern Ridge, Irrigon, Jewell Meadows, Klamath, Ladd Marsh, Phillip W. Schneider, Power City, Sauvie Island, Summer Lake, White River and Willow Creek.

A free annual permit comes with the purchase of an annual hunting license, combination license, or Sports Pac. All other wildlife area users need to purchase a permit. Permits are available where fishing and hunting licenses are sold and on the ODFW website (myodfw.com/articles/buying-odfw-wildlife-area-parking-permit).

DEFINITIONS

“Adult Hunting License” is a resident or non-resident hunting license, resident combination angler’s and hunting license, disabled veteran’s angling and hunting license, pioneer’s angling and hunting license, or senior citizen’s angling and hunting license.

“Agricultural Lands” are lands not less than 10 acres in extent that have been cultivated and planted or irrigated to domestic crops that are currently in use. Isolated home gardens, abandoned farmsteads, logged lands, range lands and tree farms are not included in this definition.

“Antler Point” is a point at least 1 inch in length measured from tip of point to nearest edge of beam. This definition applies only to the 3-point elk and spike only elk bag limits.

“Antlerless Deer” means doe (female deer) or deer fawn (young of the year).

“Antlerless Elk” means cow (female elk) or elk calf (young of the year).

“Bait” for hunting game mammals means any substance placed to attract an animal by its sense of smell or taste, including, but not limited to, food items or minerals (such as salt). Applying a scent or attractant to one’s body or clothing while worn is not baiting.

“Brace Height” is the distance from the back of the bow’s riser at the handgrip to the string when the bow is at rest.

“Broadhead” see Unbarbed Broadhead.

“Buck deer” means a male deer with at least one visible antler.

“Buck Pronghorn” means a male pronghorn antelope with visible horns and a dark cheek patch below the ear.

“Bull elk” for the purposes of a bag limit definition, means a male elk with at least one visible antler.

“Carcass” means the skinned or unskinned body, with or without entrails, of a game bird or game mammal.

“Cervid” means any member of the family cervidae (deer), including gametes or hybrids.

“Closed Season” is any time and place when it is not authorized to take a specific species, sex, or size of wildlife.

“Controlled Hunt” is a season where the number or distribution of hunters is limited through a public drawing or other means.

“Doe or fawn pronghorn”, for the purpose of pronghorn bag limits, means a female pronghorn without a dark cheek patch below the ear, or a pronghorn fawn (young of the year) of either sex.

“Drone” means an unmanned flying machine; an unmanned water-based vehicle; or any other vehicle that is able to operate in the air, in or under the water or on land, either remotely or autonomously, and without a human occupant.

“Eligible Hunter” is someone who will be 12 years of age by the time they hunt.

“Established Airport” is one that the Oregon Department of Aviation has licensed as a public-use airport, registered as a personal-use airport, or specifically exempted from either licensing or registration.

“Furbearers” are beaver, bobcat, fisher, marten, mink, muskrat, otter, raccoon, red fox and gray fox.

“Game Mammals” are pronghorn antelope, bighorn sheep, black bear, cougar, deer, elk, moose, Rocky Mt goat and western gray squirrel.

“General Season” is any season open to the holder of a valid hunting license and appropriate game mammal tag without restriction as to the number of participants.

“Hunt” means to take or attempt to take any wildlife by means involving the use of a weapon or with the assistance of any mammal or bird. Informational Note: As per ORS 161.405 “Attempt” described: A person is guilty of an attempt to commit a crime when the person intentionally engages in conduct which constitutes a substantial step toward commission of the crime.

“Immediate Family” means a landowner’s spouse, domestic partner, children, father, mother, brother, sister, step-children and grandchildren. For the purpose of Landowner Preference, “immediate family” also includes brother-in-law and sister-in-law.

“Inedible” means unfit for human consumption.

“Landowner” means a person who holds title in trust or in fee simple to 40 or more contiguous acres of land provided that a recorded deed or contract of ownership shall be on file in the county in which the land is located; and/or a corporation or Limited Liability Company (LLC) holding title in fee simple to 40 or more contiguous acres of land provided that the corporation or LLC shall be registered with the State of Oregon; and/or a partnership holding title in fee simple to 40 or more contiguous acres of land. Persons who hold title as part of a time share are not eligible for landowner preference.

“Muzzleloader” is any single barreled (shotguns may be double barreled) long gun meant to be fired from the shoulder and loaded from the muzzle with an open ignition system and open or peep sights. This includes: open ignition in-line percussion; sidelock, under-hammer, top-hammer and mule ear

HUNT SAFELY HUNT RESPONSIBLY

Every hunter has the responsibility to enter the field well prepared to hunt in a safe ethical manner; the future of our hunting heritage depends on it.

THE FOUR PRIMARY RULES OF FIREARM SAFETY

MUZZLE. Control the direction of your muzzle at all times

TRIGGER. Keep your finger outside of the trigger guard until ready to shoot

ACTION. Treat every firearm as though it were loaded- open the action and visually check if it is loaded

TARGET. Be sure of your target and what is in front of it and beyond it

WEAR HUNTER ORANGE

Most firearm incidents during big game hunting are vision related - a hunter is shot because they were not seen. Hunter orange clothing makes it much easier for one hunter to recognize another hunter because nothing in nature matches this color. All hunters ages 17 and below must wear a hunter orange hat or vest while hunting big game and upland game birds (except turkey) with any firearm. ODFW strongly encourages you to wear HUNTER ORANGE.

HOG SWAT

FOR YOUR HOG PROBLEM

229-669-9748
Thermal Sales & Consulting

For \$500 per night, per person, we take you on the ultimate Hog Hunt! We use highly modified 4x4 vans equipped with long range FLIR on the roof and large screens and comfortable seating. This allows us to take up to 4 hunters in comfort and cover 1000's of thousands of acres a night in search of wild hogs to kill. Once we spot them from the van, it turns into 'bowhunting' with an AR. We foot stalk into 60 yards and you try to kill every pig in front of you with an AR with a top of the line Armasight thermal scope. How many will ya get?
