# SPORTFISHING in America

**AN ECONOMIC FORCE FOR CONSERVATION**

JANUARY 2013

## WHAT IS THE AMERICAN SPORTFISHING ASSOCIATION?

The American Sportfishing Association (ASA) is the sportfishing industry's trade association committed to representing the interests of the entire sportfishing community.

We give the industry a unified voice, speaking out on behalf of sportfishing and boating industries, state and federal natural resource agencies, conservation organizations, angler advocacy groups and outdoor journalists when emerging laws and policies could significantly affect sportfishing business or sportfishing itself.

ASA invests in long-term ventures to ensure the industry will remain strong and prosperous, as well as safeguard and promote the enduring social, economic and conservation values of sportfishing in America.

ASA also gives America's 60 million anglers a voice in policy decisions that affect their ability to sustainably fish on our nation's waterways through KeepAmericaFishing™, our angler advocacy campaign.

ASA also represents the interests of America's nearly 60 million anglers who generated over \$46 billion in retail sales with a \$115 billion impact on the nation's economy creating employment for more than 828,000 people in 2011.

# This is Sportfishing in America

**DRIVE PAST ANY LAKE,** river or beach and odds are you will see people, even entire families, gathered along the shore or in boats fishing. Fishing is, after all, one of America's most enduring pastimes; something in which people of all ages can participate and an activity that millions of families and friends enjoy each year as a way to have fun together and spend time in the outdoors.

But fishing is more than just the thrill of the catch or a peaceful – and sometimes adventurous – escape. It's the foundation of an industry that supports more than 800,000 jobs involved in the manufacture, sale or provision of angling products and services, such as hotels, tackle retailers, boat builders, restaurants and more.

The U.S. Fish & Wildlife Service's (USFWS) *2011 National Survey of Fishing, Hunting and Wildlife-Associated Recreation* identifies fishing as one of the most popular outdoor recreational activities in the United States.

As many as 33 million people aged 16 or older participate in the activity, and spend \$48 billion annually on equipment, licenses, trips and other fishing-related items or events.

These funds help create and support more than 828,000 jobs in the United States at a time when many industries are still coping with a challenging economic climate. In some rural areas, the dollars brought in through recreational fishing help support entire communities.

## Anglers support more than **828,000 JOBS** in the U.S.

Even more important are the vital conservation benefits fishing generates for our nation's waters and fish. Since the passage of the 1950 Federal Aid in Sport Fish Restoration Act, anglers have paid a federal excise tax on fishing tackle. In 1985 those taxes were expanded to include the federal excise tax on motorboat fuel in what is now known as the Sport Fish Restoration and Boating Trust Fund.

These tax revenues are distributed annually to state fish and wildlife agencies to help fund projects and programs that directly benefit fish, habitat and, ultimately, anglers and other recreational water enthusiasts.

In 2010 alone, the excise tax on sportfishing tackle amounted to \$390 million. Along with the \$657 million contributed by anglers through fishing license fees and \$403 million in private donations, anglers generated \$1.45 billion for fisheries conservation efforts.

## SO HOW MANY ANGLERS ARE THERE?

Fishing is enjoyed by people of all ages. No one is ever too young or too old to enjoy a day on the water enjoying nature and catching fish. Based on the U.S. Fish and Wildlife Service's (USFWS) 2011 survey, there are 33 million anglers in the United States over the age of 16. Previous surveys by the USFWS indicated there was one youth angler (under 16 years of age) for every 2.5 adults over 16 years of age who fished.

If this ratio still holds, there are 13 million youths who fished in 2011, for a total of approximately 46 million anglers. Recent examinations of state fishing license records indicate many anglers will not buy a license every year.

Possibly one-third to one-half of people who consider themselves anglers may not be able to fish in a given year due to a variety of reasons.

Overall, ASA estimates approximately 60 million Americans may consider themselves to be anglers, regardless of buying a license in any one given year.

# The Economic Benefits of Sportfishing

**NEAR THE SANTEE-COOPER LAKES** in South Carolina, Strawberry Reservoir in Utah, Lake Okeechobee in Florida, the White River in Arkansas and countless other lakes, rivers and seaside areas across the U.S., there are many communities that depend on the dollars from recreational anglers and related tourism for many of their citizen's livelihoods.

From direct product and service providers such as marinas, fishing guides and tackle shops to the businesses that help anglers enjoy their experience on the water such as restaurants, gas stations and hotels, the \$1,441 spent annually by the average American angler in 2011 supported jobs that generated \$35 billion in salaries and wages. Examine anglers' expenditures and you'll find that over half went to purchase food, lodging, transportation and other travel items. The money spent by companies and employees supporting anglers created an economic multiplier effect with a \$115 billion impact on the nation's economy in 2011.

## Economic Contributions by Type of Fishing

	All Fishing	Freshwater	Saltwater	Great Lakes
Anglers	33,111,674	27,059,745	8,888,832	1,664,824
Expenditures/Retail Sales	\$47,697,532,293	\$30,601,946,954	\$13,416,585,025	\$2,971,195,133
Total Multiplier Effect (Economic Output)	\$114,531,945,219	\$73,323,352,261	\$32,279,006,619	\$7,227,424,732
Salaries and Wages	\$35,259,134,752	\$22,195,330,849	\$9,922,342,619	\$2,205,174,067
Jobs	828,133	518,270	243,226	49,298
Contribution to Gross Domestic Product (GDP)	\$61,721,729,003	\$39,202,948,762	\$17,446,689,683	\$3,797,932,801
Federal, State and Local Taxes	\$14,955,905,485	\$9,530,277,934	\$4,242,361,691	\$918,163,495

## Top 10 States Ranked by Angler Expenditures

Rank	State	Total Expenditures	Number of Anglers
1.	Florida	\$4,953,493,028	3,091,952
2.	New York	\$2,696,583,564	1,882,280
3.	Michigan	\$2,465,535,795	1,744,206
4.	Minnesota	\$2,440,230,389	1,561,881
5.	California	\$2,393,961,476	1,673,633
6.	Texas	\$2,014,497,308	2,246,367
7.	Ohio	\$1,903,619,503	1,341,657
8.	North Carolina	\$1,655,538,064	1,524,578
9.	Wisconsin	\$1,459,883,024	1,246,775
10.	Virginia	\$1,407,011,422	832,641

## Top 10 States: Non-Resident Fishing Destinations Ranked by Number of Visiting Anglers

Rank	State	Number of Non-Resident Anglers	Total Non-Resident Expenditures
1.	Florida	1,197,279	\$898,283,876
2.	Michigan	347,029	\$326,337,857
3.	Wisconsin	336,753	\$445,006,874
4.	North Carolina	328,810	\$260,296,738
5.	Alaska	327,418	\$361,768,322
6.	New York	297,070	\$282,573,249
7.	Oregon	264,424	\$241,771,577
8.	Minnesota	259,324	\$364,108,877
9.	New Jersey	256,950	\$106,323,764
10.	Missouri	244,290	\$205,686,074

Angler numbers  
grew  
**11 PERCENT**  
since 2006

### U.S. FISHING FACTS

- There are approximately 60 million anglers in the U.S. of which 46 million are estimated to fish in a given year.
- Anglers generate \$48 billion in retail sales.
- Recreational fishing has a \$115 billion impact on the nation's economy.
- Recreational fishing generates \$15 billion in state and federal taxes.
- More than 828,000 jobs are supported through recreational fishing.
- One of every four anglers fishes in saltwater.
- Fishing tackle sales grew over 16 percent in the past five years.
- Since 2006, angler numbers grew 11 percent.

#### DID YOU KNOW

- Recreational fishing – both fresh and saltwater combined – ranks higher than bowling or playing basketball, softball or soccer, according to data from the National Sporting Goods Association.
- More Americans fish than play golf (21 million) and tennis (13 million) combined.
- If fishing were a company, the amount spent by anglers to support fishing-related retail sales would rank number 51 on the Fortune 500™ list.
- Fishing generated more revenue (\$48 billion) than Lockheed Martin (\$47 billion), Intel (\$44 billion), Chrysler (\$42 billion) or Google (\$38 billion).
- The economic activity generated by sportfishing is greater than the economies, measured in Gross State Product, of 17 states.
- At more than 46 million anglers in 2011, more than twice the number of people fished in 2011 than attended every NFL game combined.

# Thank an Angler!

**THANK AMERICA'S ANGLERS** if you enjoy clean, healthy lakes, rivers and oceans teeming with a dynamic variety of fish and shorebird species, since it's their dollars that provide the bulk of the funding for our nation's fisheries conservation and environmental success.

In fact, you would be hard pressed to find any group of people in the country who contributes more: nearly \$1.5 billion annually. And angler numbers are growing – 11 percent overall in the five years since the last national survey. In fact, accounting for regional variations, some angling demographics actually increased by a larger percentage, including Great Lakes anglers, whose numbers grew by 17 percent and saltwater anglers, whose numbers increased by 15 percent.

This growing legion of anglers is the economic engine that helps keep fisheries conservation moving successfully forward through the purchase of fishing licenses, which go directly toward the operations of state fish and wildlife agencies, and through the federal excise tax on fishing tackle as part of the long-running Sport Fish Restoration and Boating Trust Fund.

License sales in 2010 amounted to \$657 million, while the excise taxes collected on the sale of fishing gear, boats and boat fuel added another \$390 million in support of conservation efforts carried out in each state. It's a model that virtually powers itself.

In addition, anglers donate over \$400 million more each year to various conservation and fishing organizations. Without fish and good habitat, there would be no anglers, and without anglers – men, women and children – there would be few fish and little quality habitat. The year 2012 marked the 75th anniversary of our nation's system of conservation funding – a model that is envied throughout the world – that directs excise taxes on fishing and hunting gear toward state-based conservation. The Sport Fish Restoration and Boating Trust Fund has resulted in robust fish and wildlife populations and quality habitat that is the legacy of the sportfishing industry and sportsmen and women alike.

† The Alaska Department of Fish and Game (ADFG) has expressed concern regarding the expenditure estimates from the USFWS National Survey. Readers may wish to defer to economic statistics produced by the ADFG. †† North Dakota has expressed concerns regarding their estimated number of anglers. Please refer to license data for alternate estimates. † includes resident and non-resident anglers. ††† The sum of the states is about one percent less than the U.S. total. The difference comes from anglers unable to assign some expenditures to any specific state. For example, an online purchase that is then used in multiple states.

<b>TOTAL</b>	<b>\$47,697,532,293</b>	<b>\$7,734,082,154</b>

The American Sportfishing Association (ASA) is the sportfishing industry's trade association committed to representing the interests of the entire sportfishing community. We give the industry a unified voice, speaking out on behalf of sportfishing and boating industries, state and federal natural resource agencies, conservation organizations, angler advocacy groups and outdoor journalists when emerging laws and policies could significantly affect sportfishing business or sportfishing itself. ASA invests in long-term ventures to ensure the industry will remain strong and prosperous, as well as safeguard and promote the enduring social, economic and conservation values of sportfishing in America. ASA also gives America's 60 million anglers a voice in policy decisions that affect their ability to sustainably fish on our nation's waterways through KeepAmericaFishing,<sup>™</sup> our angler advocacy campaign. ASA also represents the interests of America's nearly 60 million anglers who generated over \$46 billion in retail sales with a \$115 billion impact on the nation's economy creating employment for more than 828,000 people in 2011.

This publication was funded by Multistate Conservation Grant VA F12AP00137, VA M-26-R awarded by the Wildlife and Sport Fish Restoration Programs of the U.S. Fish and Wildlife Service, jointly managed with the Association of Fish and Wildlife Agencies.

#### **REPORT CITATION**

Southwick Associates. *Sportfishing in America: An Economic Force for Conservation*. Produced for the American Sportfishing Association (ASA) under a U.S. Fish and Wildlife Service (USFWS) Sport Fish Restoration grant (F12AP00137, VA M-26-R) awarded by the Association of Fish and Wildlife Agencies (AFWA), 2012.

Data sources for "U.S. Fishing Facts" and "Quick Fishing Facts:" U.S. Department of the Interior, U.S. Department of Commerce, *Fortune* magazine, National Sporting Goods Association, ESPN and Southwick Associates.

Methodology: Data were obtained from the U.S. Fish and Wildlife Service's 2011 *National Survey of Fishing, Hunting and Wildlife-Associated Recreation*. Impacts were developed using the IMPLAN from MIG, Inc. of Stillwater, Minn.

Special notes include:

- For some expenditures, the state where the purchase was made was not identified. These were assigned to the angler's state of residence.
- The estimates of anglers and angler days do not exactly match numbers reported by the USFWS. The sum of the state-level numbers are reported here, whereas the USFWS calculated a single number at the national level. Either method is appropriate.
- The expenditures reported here may be higher than those reported by the USFWS. This is due to expenditures made by an individual for both fishing and hunting. In such cases, the USFWS reports these separately and not part of their fishing-only estimates. In this report, such expenditures are pro-rated into hunting and fishing portions based on the individual's total days of hunting and fishing, and then assigned to each activity as appropriate. Using either approach, the USFWS's or the method used here, the results are accurate and acceptable.
- The results can be combined with the hunting impacts reported in the hunting economics publication from the National Shooting Sports Foundation to gain a comprehensive picture of the returns from all sportsmen and women.
